Savings Cushion Gives Soft Place to Land During Economic Downturn

In today's economy, being financially prepared for unexpected and infrequent expenses is more important than ever. But a 2008 survey by the American Savings Education Council revealed that only 28% of Americans set aside at least 10% of their income—the amount experts recommend.

To help build savings:

- Pay yourself first. NACHA, the electronic payments association, Herndon, VA., surveyed 1,505 people by telephone in 2006. The survey revealed that those using direct deposit save \$390 a month, \$90 more than those saving manually. It's not magic—it's being consistent instead of random in your savings patterns. Direct deposit is convenient, safe, timely, and environmentally safe.
- Cut credit card costs. Switch to a credit union credit card—interest rates generally lower than interest rates on bank cards, and they have lower fees as well. Pay on time and, whenever possible, pay the balance in full each month.

- Save your tax refund. Use it to help build a savings fund for budget challenges. Use it to cover unexpected as well as anticipated expenses, such as insurance premiums. Pay down debt so you can save even more money in the future.

Make saving a habit and you'll be ready for any financial challenge that comes your way.

We can help you set up a spending plan to help you meet your savings goals. You'll be surprised how much peace of mind you'll gain when you have emergency savings to fall back on. Stop by or call us today.

Shield Valuables With a Fireproof Safe

To truly protect your documents or valuables, you might consider a fireproof safe for your home.

The voluntary UL (Underwriters Laboratories) label on the safe signifies the maximum temperature the interior will reach during a fire. A safe with a UL350 rating, for example, would reach a maximum temperature of 350 degrees Fahrenheit. If you are storing more heat-sensitive items—such as computer media, photographs, jewelry, or film—look for a rating of UL125.

Once you choose the amount of protection you need, gather your valuables. LegalZoom.com recommends keeping these things in your safe—in zip plastic bags in case the box ends up downriver:

1. Current insurance policies and agent contact information.

2. Passports and original birth certificates.
3. A list of doctors, prescription medications, and pharmacy contacts.
4. CDs containing digital copies of photos with sentimental value.
5. Safe deposit box keys.
6. Important papers related to investments, retirement plans, savings and checking accounts, and associated contact information.
7. List of outstanding debts, due dates, and contact information.
8. Original Social Security cards.
9. Copies of important legal documents, such as powers of attorney, living wills, and health-care proxies.
10. Copy of wills, including those for which you are the designated representative.
